

Fortune CP Ltd

800W SOLAR HYBRID SYSTEM

Typical power generated:

5.57Kwh/day, 167.24Kwh/month, 2034.75Kw/yr.*

Our Solar Power Hybrid System gives you the major components required to install an off-grid system in your home, office, clinic etc. The system can be customised to suit your specific needs.

The system can power the following: -(*)

- | | |
|------------------------|----------------|
| 20 Light Bulbs | 1 Microwave |
| 1 20" Television | 1 Refrigerator |
| 1 Radio/ CD Player | 1 Fan |
| 3 Mobile Phone Charger | |

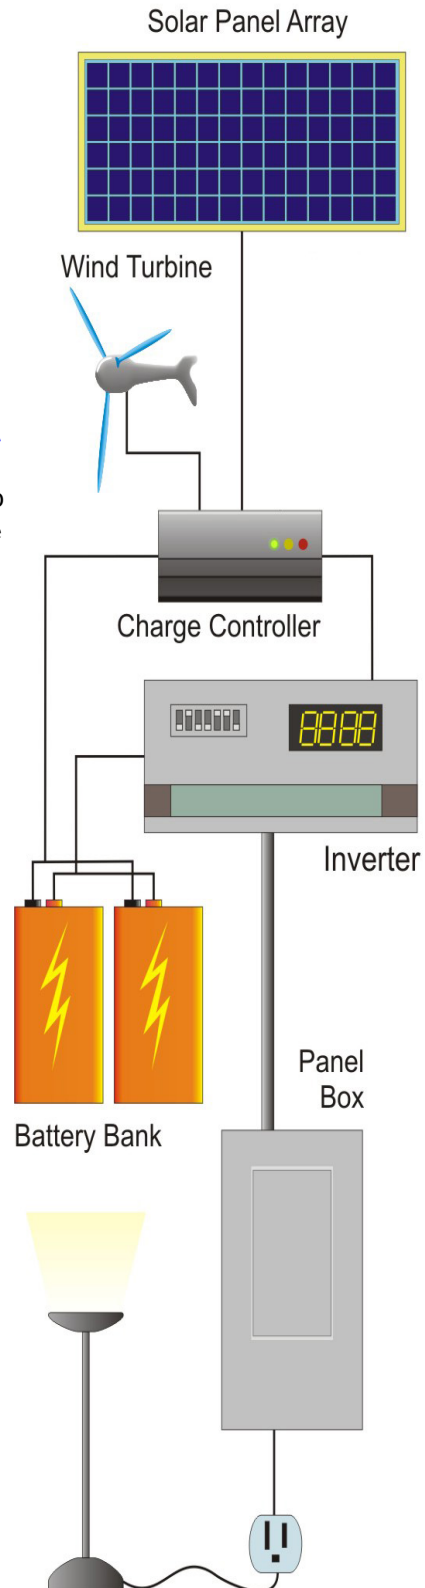

The base system includes:

- 500W Wind Turbine
- 4 x 80 Watt solar panels (typically Fortune CP or BP) 25 yr warranty
- Pure Sine wave inverter to convert battery DC output to AC
- Charge controller with LED status indicators
- Deep cycle sealed solar batteries (1 day reserve power)
- Approx. 10 metre module array output cable to connect Turbine, Panels with system charge controller
- Junction Box, Instruction Guide
- DC Circuit breaker for Solar Panels

OPTIONAL

Design & Installation - contact us for details
 Free Standing, Roof & Pole mounted frames available - please contact us
 Add additional solar panel for more power generation
 Increase storage capacity with more batteries
 Solar Tracking Frames available on request
 7-13m Tower Kit

Solar Hybrid System

* Approximate, based on average power rating of appliances. Actual power consumption of appliances may vary. Contact us if you are in doubt regarding power load evaluation.

1KW SOLAR HYBRID SYSTEM

Typical power generated:

6.17Kwh/day, 185.24Kwh/month, 2253.75Kw/yr.*

Our Solar Power Hybrid System gives you the major components required to install an off-grid system in your home, office, clinic etc. The system can be customised to suit your specific needs.

The system can power the following: -(*)

- | | |
|------------------------|----------------|
| 25 Light Bulbs | 1 Microwave |
| 1 20" Television | 1 Refrigerator |
| 1 Radio/ CD Player | 1 Fan |
| 3 Mobile Phone Charger | |
| 1 Computer | |

The base system includes:

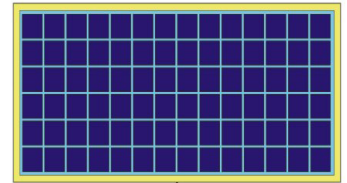

- 500W Wind Turbine
- 4 x 125 Watt solar panels (typically Fortune CP or BP) 25 yr warranty
- Pure Sine wave inverter to convert battery DC output to AC
- Charge controller with LED status indicators
- Deep cycle sealed solar batteries (1 day reserve power)
- Approx. 10 metre module array output cable to connect Turbine, Panels with system charge controller
- Junction Box, Instruction Guide
- DC Circuit breaker for Solar Panels

OPTIONAL

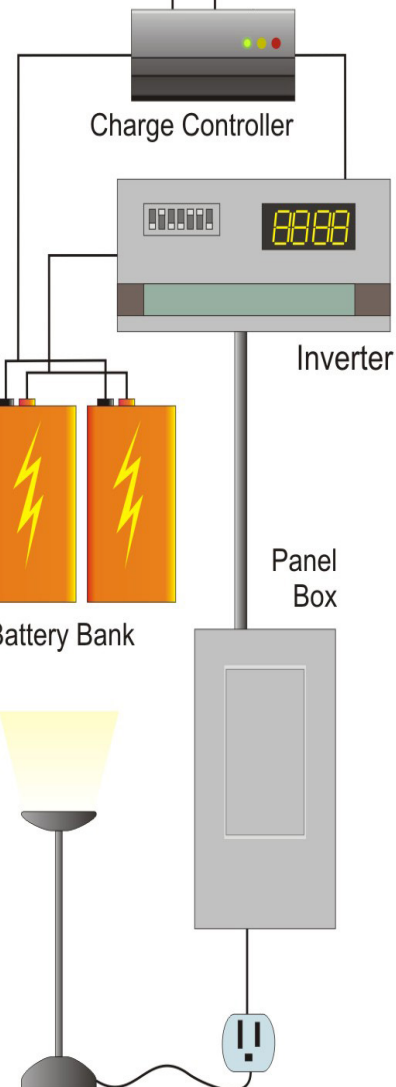

Design & Installation - contact us for details
 Free Standing, Roof & Pole mounted frames available - please contact us

1.6KW SOLAR HYBRID SYSTEM

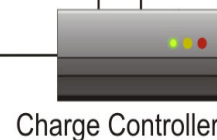

Solar Hybrid System

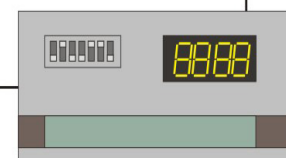

Solar Panel Array

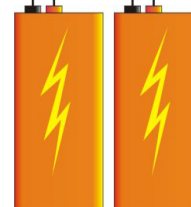

Wind Turbine

Charge Controller

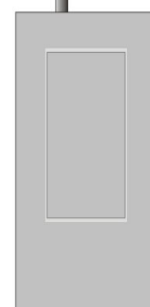

Inverter

Battery Bank

Panel Box

Typical power generated:

9.33Kwh/day, 280.00Kwh/month, 3406.67Kw/yr.*

Our Solar Power Hybrid System gives you the major components required to install an off-grid system in your home, office, clinic etc. The system can be customised to suit your specific needs.

The system can power the following: -(*)

- | | |
|------------------------|-----------------------|
| 30 Light Bulbs | 1 Microwave |
| 2 20" Television | 1 Computer |
| 1 Radio/ CD Player | 2 Small Refrigerators |
| 3 Mobile Phone Charger | 2 Fan |

The base system includes:

- 600W Wind Turbine
- 8 x 125 Watt solar panels (typically Fortune CP or BP) 25 yr warranty
- Pure Sine wave inverter to convert battery DC output to AC
- Charge controller with LED status indicators
- Deep cycle sealed solar batteries (1 day reserve power)
- Approx. 10 metre module array output cable to connect Turbine, Panels with system charge controller
- Junction Box, Instruction Guide
- DC Circuit breaker for Solar Panels

OPTIONAL

Design & Installation - contact us for details

2KW SOLAR HYBRID SYSTEM

Typical power generated:

12.35Kwh/day, 370.48Kwh/month, 4507.50Kw/yr.*

Our Solar Power Hybrid System gives you the major components required to install an off-grid system in your home, office, clinic etc. The system can be customised to suit your specific needs.

The system can power the following: -(*)

- | | |
|------------------------|-----------------------|
| 25 Light Bulbs | 1 Microwave |
| 1 20" Television | 1 Cooker |
| 1 Radio/ CD Player | 2 Small Refrigerators |
| 3 Mobile Phone Charger | 2 Fan |
| 1 Computer | |

The base system includes:

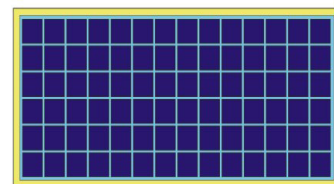

- 1000W Wind Turbine
- 8 x 125 Watt solar panels (typically Fortune CP or BP) 25 yr warranty
- Pure Sine wave inverter to convert battery DC output to AC
- Charge controller with LED status indicators
- Deep cycle sealed solar batteries (1 day reserve power)
- Approx. 10 metre module array output cable to connect Turbine, Panels with system charge controller
- Junction Box, Instruction Guide

3KW SOLAR HYBRID SYSTEM

Typical power generated:

17.52Kwh/day, 525.50Kwh/month, 6393.58Kw/yr.*

Our Solar Power Hybrid System gives you the major components required to install an off-grid system in your home, office, clinic etc. The system can be customised to suit your specific needs.

The system can power the following: -(*)

- | | |
|------------------------|----------------|
| 35 Light Bulbs | 1 Microwave |
| 2 20" Television | 1 Cooker |
| 2 Radio/ CD Player | 1 Refrigerator |
| 3 Mobile Phone Charger | 3 Fan |
| 2 Computer | |

Other appliances rating up to 200W

The base system includes:

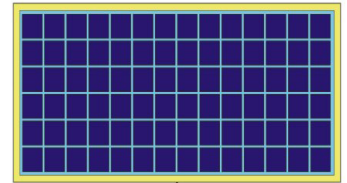

- 1500W Wind Turbine
- 13 x 125 Watt solar panels (typically Fortune CP or BP) 25 yr warranty
- Pure Sine wave inverter to convert battery DC output to AC
- Charge controller with LED status indicators
- Deep cycle sealed solar batteries (1 day reserve power)
- Approx. 10 metre module array output cable to connect Turbine, Panels with system charge controller
